

**Trucked Waste Program
Waste Generator Permit Application**

New Renewal

Section A: Contact Information

1. Trucked Waste Generator

Company Name	
Address	
Municipality / County	
Phone Number	
Email Address	
Responsible Individual	
Standard Industrial Classification (SIC) Number	
Waste Generator US EPA ID No. (if any)	
Other Environmental Permits (NPDES, RCRA, Municipal Waste, Residual Waste)	

2. Trucked Waste Hauler

Company Name	
Address	
Municipality / County	
Phone Number	
Email Address	
Responsible Individual	
LASA License Number(s)	

Section B: Regulatory Information

1. Is the Liquid Waste subject to categorical pretreatment standard(s)? YES NO

If YES, please do not proceed any further with this application. Contact LASA for an Industrial User Wastewater Discharge Permit Application.

2. Does the Liquid Waste come from a facility, or any portion of the facility, that is regulated as a Federal and/or State Resource Conservation and Recovery Act (RCRA) facility for treatment, storage, or disposal? YES NO

If YES, explain:

3. Is the Liquid Waste a listed RCRA hazardous waste (40 CFR 261)(F, P, K, U listed waste)? YES NO
4. Is the Liquid Waste a characteristic RCRA hazardous waste (40 CFR 261)(D listed waste)? YES NO
5. Is the Liquid Waste a mixture of a RCRA hazardous waste (40 CFR 261) with a non-hazardous waste? YES NO
6. Is the Liquid Waste derived from a listed RCRA hazardous waste (40 CFR 261)? YES NO
7. Is the Liquid Waste the product of a spill/cleanup of a listed RCRA hazardous waste (40 CFR 261)? YES NO
8. Was the Liquid Waste a listed RCRA hazardous 40 CFR 261 as generated and rendered RCRA non-hazardous by pretreatment? YES NO

If your response is YES to any of the questions numbered 3 through 8, please do not proceed any further with this application because the Liquid Waste cannot be accepted for treatment at the Lancaster Area Sewer Authority Susquehanna Water Pollution Control Facility. Any person discharging such Liquid Waste via truck to LASA for treatment will be subject to enforcement including the possibility of civil and criminal penalties.

Section C: Wastewater Generation

1. **Required Attachment(s):**

- Schematic Flow Diagram – This should be a simple line drawing that illustrates the flow of the generator facility's processes, emphasizing processes that generate wastewater and any associated pretreatment systems.
- Site Layout - This diagram should include building outlines, all discharge plumbing, floor drains, holding tanks, all process waste production areas, water meters, bathrooms/sinks, grease traps, etc.

2. Description of process generating Liquid Waste

3. Principal raw materials used in the process generating Liquid Waste

4. Principal products (or service) from which the Liquid Waste is generated

5. Has the Liquid Waste been pretreated? YES NO

If YES, describe the pretreatment process in use (attach pretreatment flow diagram if available).

6. Is the Liquid Waste generated as a result of a site cleanup/compliance activity? YES NO

If YES, describe the cleanup/compliance activity and the regulatory program.

7. Requested Discharge Rate:

	Gallons Per Day
--	-----------------

Section D: Wastewater Properties

1. Name of Liquid Waste: _____

- | | | |
|-------------------------------------|---|--------------------------------------|
| <input type="checkbox"/> Commercial | <input type="checkbox"/> Leachate | <input type="checkbox"/> Other _____ |
| <input type="checkbox"/> Industrial | <input type="checkbox"/> Portable Toilet | |
| <input type="checkbox"/> Municipal | <input type="checkbox"/> Sludge (<input type="checkbox"/> Commercial <input type="checkbox"/> Municipal) | |

Physical State

Color _____

Odor _____

Section E: Wastewater Analysis

1. Analysis must be performed on a representative sample by a PA Accredited laboratory and the results submitted must be recent. **Attach a copy of the lab results** with this application for the parameters listed below:
 - **Inorganics:** Ammonia, Biochemical Oxygen Demand (BOD), Chemical Oxygen Demand (COD), Total Nitrogen, Oil and Grease (O&G), pH, Total Phosphorus, Total Solids, Total Suspended Solids (TSS)
 - **PCB's:** Total PCB's
 - **Metals:** Arsenic, Cadmium, Chromium, Copper, Total Cyanide, Lead, Mercury, Molybdenum, Nickel, Selenium, Silver, Zinc

2. Are you required to complete a chemical analysis of residual waste in accordance with 25 Pa Code §287.51?
 YES (attach Form 26R) **NO**

Section F: Certification

1. Certification of firm requesting permit: "I hereby affirm under penalty of perjury that the information on this form and any attachments submitted herewith is true to the best of my knowledge and belief."

Printed Name of Owner or Authorized Representative	
Signature of Owner or Authorized Representative	
Date	

2. Certification of generator: "I certify that, to the best of my knowledge, there are no RCRA or CERCLA classified hazardous waste(s) or EPA categorical wastes present in any amount in the waste generated from the facility described in this waste generator permit application proposed to be discharged to the Lancaster Area Sewer Authority Susquehanna Water Pollution Control Facility. I realize that the discharge of any RCRA classified hazardous waste(s) at the Lancaster Area Sewer Authority Susquehanna Water Pollution Control Facility is strictly prohibited. I also realize that the discharge of any hazardous waste(s) at the facility will result in enforcement action being initiated against me that may include fines, permit revocation and/or imprisonment. I hereby affirm under penalty of perjury that the information on this form and any attachments submitted herewith is true to the best of my knowledge and belief."

Printed Name of Owner or Authorized Representative	
Signature of Owner or Authorized Representative	
Date
