

# Landisville 1 Pump Station Upgrade

Construction of a project to increase the capacity of the Landisville 1 Pump Station began during November of 2024. This project includes, replacement of the pump station located behind the Landisville Fire Station on Main Street and replacement of sewer main following the bold black line on the map below.

## Update

**April 16, 2025 – May 9, 2025- Doli Construction will be completing final restoration of properties impacted by the sewer main installation. Restoration includes grading of impacted soil and planting grass.**

**Restoration of the Landisville Roadways will not occur until sometime during the end of June.**
