WATER CONSERVATION NOTICE RESCINDED

Lancaster Area Sewer Authority

Lancaster Area Sewer Authority (LASA) has **rescinded the water conservation request** previously issued for customers in the following municipalities:

- East Petersburg Borough
- Mountville Borough
- Columbia Borough
- East Hempfield Township
- West Hempfield Township
- Lancaster Township
- Manor Township

The conservation request was issued due to a power failure at a LASA wastewater treatment facility that temporarily affected treatment operations.

Power has been restored and treatment operations have returned to normal. Customers may resume normal water use.

LASA appreciates the cooperation of our customers, municipal partners, emergency management personnel, and others who assisted during this event. The prompt response to the conservation request helped reduce wastewater flows while plant operations were affected.

No further water conservation measures are necessary at this time.

Thank you for your cooperation.

Lancaster Area Sewer Authority

this information and look forward to your response.
